6+
YEARS
EXPERIENCE

SKILLS & EXPERIENCE

I have worked for multiple media and marketing agencies as a freelancer and full time employee. I have created websites and graphics for local and international clients.

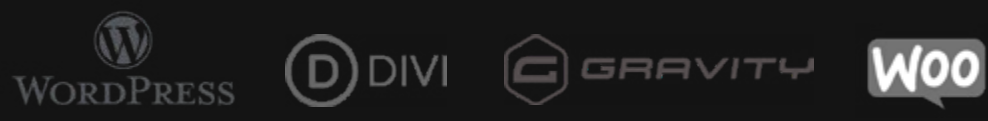

10+
YEARS
EXPERIENCE

WEBSITE DESIGN

I have worked with WordPress for over 6years and have experience with many plugins and themes. I specialize in creating fully custom website layouts and I also have an excellent understanding of HTML and CSS scripting languages, enabling further customization.

GRAPHIC DESIGN

I have over 10 years of graphic design experience ranging from traditional Print Design through to Digital Design. I am proficient in the Adobe Creative Suite (Indesign, Illustrator and Photoshop).

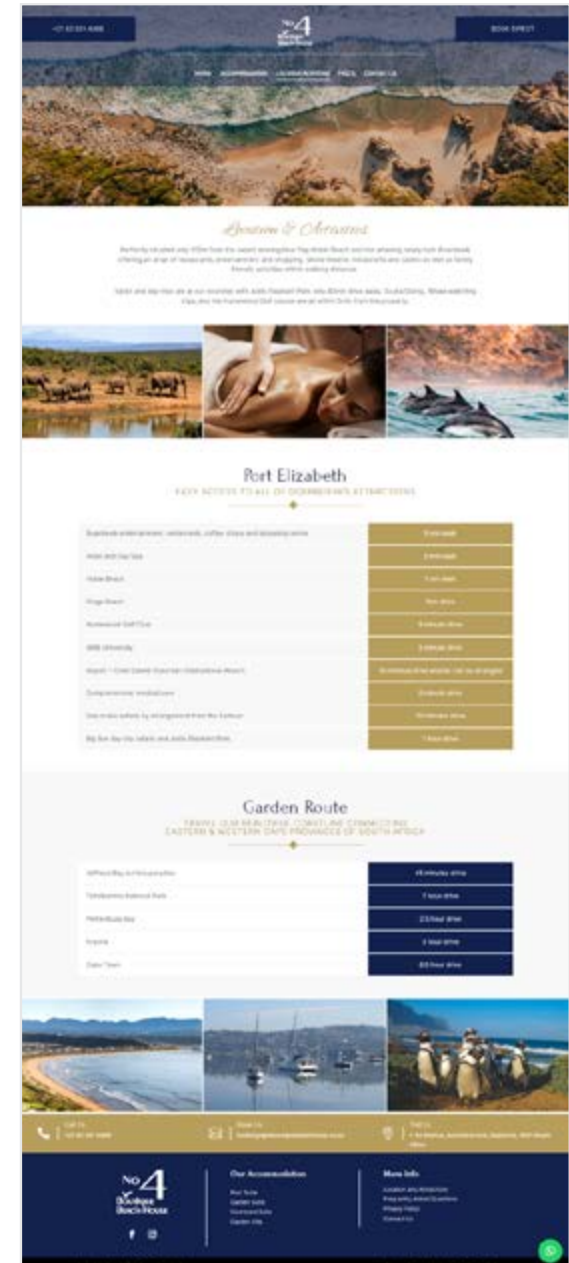

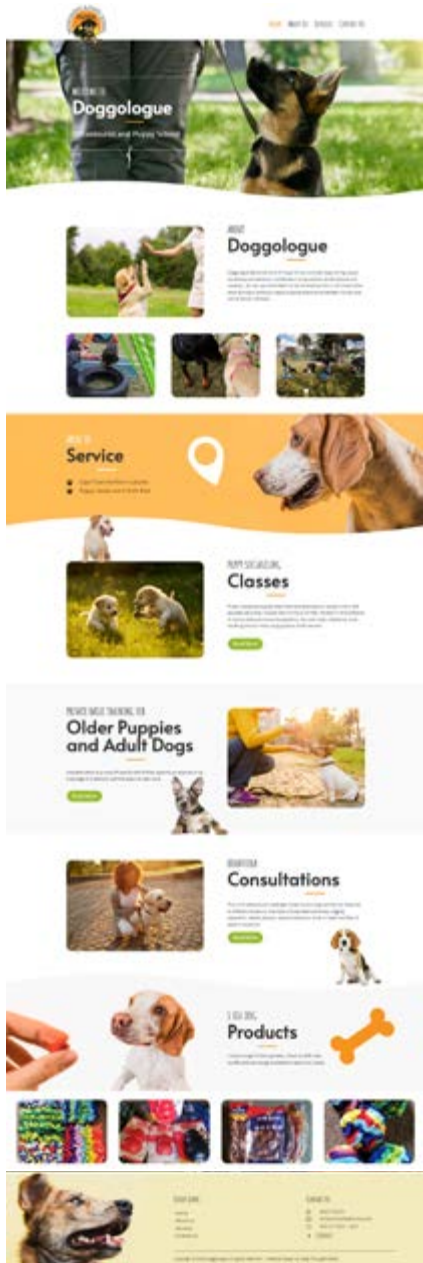

WEBSITES

RESPONSIVE DESIGN

I consider Website design to be one of my most advanced skills. I specialize in unique and custom websites and can turn any graphic design layout into a fully functional responsive website. My go-to builder would be Divi as it gives me the most freedom to create unique layouts. My WordPress knowledge expands from the back end to the front end of the platform. I am good at integrating and testing various plugins to solve unique problems and requests. I have experience with many plugins, especially ones associated with woocommerce and gravity forms. I can write, understand and integrate HTML and CSS on WP to enhance a plugin or a web page's appearance. I also understand how to add and edit pre-written JavaScript and PHP snippets to a website to achieve specific functionality. I know how to solve common bugs and WP errors. I can install WordPress from scratch and manage the WP MySQL databases and files within cpanel.

LAYOUT DESIGN

I have worked with Highbury Media and Habari Media to create adverts for their clients that featured in their well known South African Magazines.

I have created artworks for the following magazines:

3D DESIGN

This is one of my additional skills. I have taught myself the blender program, I am still a beginner but have successfully created an on scale product prototype for a client and created an animated character. See my online portfolio for more.
